# BevSweet™

## Natural Sweetener Blend

**BevSweet™ is our unique blend of non-GMO erythritol, stevia and/or monk fruit. It provides an all-natural, zero calorie sweetener solution. BevSweet™ can be used in beverage applications such as soft drinks, sports and energy drinks, and alcoholic beverages.**

### **BENEFITS**

- Provides significant calorie reduction
- With a well-rounded sucrose-like sweetness
- Allows the use of natural sweeteners without solubility issues
- Does not increase blood sugar levels
- Contains no artificial sweeteners

### **APPLICATIONS**

- Carbonated soft drinks
- Sports and energy drinks
- Juice drinks
- Alcoholic beverages
- Tea and coffee
- Powder beverages
