BETTER STEVIA, MONK FRUIT AND MORE.

TASTEBOOST™

Natural Flavor Modifier

TasteBoost™ is GLG’s cutting-edge natural flavor modifier. It provides a turn-key solution to the off-notes and flavors that can sometimes be associated with natural sweeteners while allowing for a “natural flavor” label claim. TasteBoost™ can be used to provide a sucrose-like rounded sweetness in many applications.

Benefits

- Enhances sweetness and flavor in various applications
- Can be labeled as a natural flavor
- Offers well-rounded sucrose-like sweetness
- Compliant with JECFA standard

Applications

- Tabletop sweeteners
- Carbonated beverages
- Sports, juice and energy drinks
- Dietary supplements
